Alec MacGill is a partner in Iffla Wade, a Perth based legal firm that practices in a wide range of corporate property and commercial areas.

Alec is a commercial lawyer with particular experience in the fields of communications, information and technology, procurement, transactional and project work in Australia and Asia. Alec has worked closely with both customers and suppliers, particularly in relation to telecommunications, operational and procurement contracting. Alec has worked closely with in-house legal teams and their internal clients to assist them in their work and achieving organisational goals within their governance framework.

### **Experience**

#### **Communications, information and technology**

Alec has worked extensively in the telecommunications area since 2000 advising clients on a wide range of communications, information and technology related matters:

- communications infrastructure acting for both acquirers and suppliers, including in relation to operations and maintenance arrangements, network construction and expansion projects
- retail and wholesale short, medium and long term service arrangements acting for both suppliers and acquirers
- hardware and software supply and operation and maintenance arrangements for hardware and software and
- data management and storage arrangements

In addition to the above, Alec has extensive experience in the telecommunications sector for all aspects of the Transactional and Procurement work set out below.

#### **Transactional and project work**

Alec has a broad commercial law background encompassing a wide variety of commercial transactions and projects, including:

- acquisitions and disposals
- construction
- project contracts and implementation
- operations and maintenance arrangements
- joint ventures
- outsourcing
- consulting contracts
- service arrangements, including long term service contracts
- leasing

## **Procurement**

Alec acts for customers and suppliers, and for private and government bodies, in structuring, negotiating, documenting and implementing a broad range of procurement activities, including:

- pre-tender and tender documentation, including technical documentation preparation and review
- tender response evaluation
- due diligence
- contract drafting and negotiations
- insurance and risk allocation issues
- extensions, variations and disengagement negotiations and advice
- contract review and interpretation
- contract management and implementation
- assisting with ensuring satisfaction of clients' internal governance compliance requirements and
- dispute advice and dispute resolution
